

UNIVERSAL
precast concrete

AWARDS

We are pleased with our awards for the design and manufacturing of our custom products. The National Precast Concrete Association (NPCA) is an international trade association that represents manufacturers of plant produced precast concrete products and supporting companies. As one of NPCA's more than 350 certified plants, our Plant Certification assures a uniformly high degree of excellence in plant facilities, production, processes, and quality control operations.

The American Society of Landscape Architects (ASLA) is a national professional association for landscape architects with more than 18,000 members and 48 chapters in all 50 states. The ASLA California Sierra Chapter, in conjunction with the Tuolumne River Trust and the City of Waterford, hosted the Tuolumne River Parkway Signage Design Competition.
